Banner Battery Tester DBA

12V Battery Tester

The DBA is a handy battery tester with a large LED display and a clear charge level indicator. Easy to use, high accuracy with fast measuring results. Including 12V battery system test in the car. Ideal tool for testing of motorcycle and car batteries. Including cold start current test (CCA test).

FEATURES

Measurement: 12 V voltage measurement, battery system test in car, selection of battery type (Wet, AGM or GEL battery)

Display: large LED display with display for current (CCA) and voltage, LED charge level indicator

Design: electronic measurement, robust housing incl. protective cover, easy to use

Safety: reverse polarity protection and overvoltage protection

Standards: SAE, EN, IEC, DIN and CA

Contents: tester incl. clamps, protective cover and manual

APPLICATION

Professional Range

12 V:   

TECHNICAL DATA

Type:	BBT DBA
Battery Voltage:	12 V
Test Range:	90 – 1125 CCA (EN)
Protection Rate:	IP20
Dimensions:	8 x 13 x 2.5 cm
Cable:	80 cm
Weight:	0.2 kg
Temperature Range:	0 °C to +50 °C

ITEMNUMBER

1210000131
