

LOAD TESTER 500A2

Testing batteries up to 500 Amps

The 500A2 tests batteries, starters and alternators with up to 500 Amps. The current and the voltage of the battery are shown on two separate displays. Fast and reliable load test device with easy handling.

FEATURES

- Analog display for voltage and current
- Test function: tests batteries up to 1.000 CCA
- fully insulated battery terminals with copper inserts
- metal housing
- Test for 12 V batteries, alternators and starters
- built-in warning sound

APPLICATION

Workshop
12 V:

TECHNICAL DATA

Type:	500A2
Battery Voltage:	12 V
Battery Test:	up to 1.000 CCA
Discharge Current:	up to 500A
Dimensions:	230 mm x 270 mm x 125 mm
Weight:	4,5 kg
Cable Length:	90 cm

ITEM NUMBER

1210000230
